# Samit Sankhla

+91 85294-08256 | samitsankhla@gmail.com | LinkedIn | GitHub | Portfolio

Full-stack engineer with hands-on experience across JavaScript, Python, and Java, building scalable web applications with RESTful APIs, JWT-based security, and CI/CD workflows. Skilled in Node.js, Express, React.js, MongoDB, and SQL, with working knowledge of microservices architecture and object-oriented design. Experienced collaborating in Agile/Scrum teams to deliver client-facing features on time.

## Education

**MBM University** — Jodhpur, Rajasthan
Master of Computer Applications — September 2026

**Lachoo Memorial College** — Jodhpur, Rajasthan
Bachelor of Computer Applications — May 2024

## Technical Skills

**Frontend:** JavaScript (ES6+), TypeScript, React.js, Redux, Tailwind CSS, HTML5, CSS3, Responsive Web Design
**Backend:** Node.js, Express.js, APIs Design, JWT Authentication
**Database:** SQL, MongoDB, (basic exposure to PostgreSQL)
**Programming Languages**: Python, C/C++, Java
**Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems basics, DBMS, SDLC
**Tools & Practices:** Git, Postman, WebFlow, Agile/Scrum methodologies, CI/CD basics (Jenkins)
**Ai Tools:** claude, GitHub Copilot for rapid prototyping and debugging, Familiarity with Generative AI concepts
**Languages:** Hindi (Fluent), English (Intermediate)
**Professional Interests:** Problem Solving, Creating Scalable Web Applications, Exploring Generative AI, Learning Mobile Development & Cloud Technologies

## Technical Projects

**Real Estate Marketplace — MERN Stack**

- Developed a role-based real estate platform for Buyers, Sellers, and Admins using React.js, TailwindCss, Node.js, Express.js, and MongoDB, enabling secure property listing and management.
- Implemented JWT authentication, Brevo OTP verification, and secure role-based access.
- Built features including property search & filtering, wishlist, buyer–seller chat, inquiry management, and property image uploads using Cloudinary for cloud storage.
- Integrated RESTful APIs and responsive dashboards for Buyers, Sellers, and Admins.

**Training & Placement Office Portal — MERN Stack**

- Developed a role-based portal for managing student registrations, company listings, and placement drives using React, Node.js, Express, and MongoDB.
- Integrated 2FA via email OTP (Nodemailer) and JWT authentication for secure access across Admin, TPO, and Student roles
- Deployed modules for job notifications, drive scheduling, and placement tracking; collaborated in Agile sprints to improve transparency and real-time updates.

**Excel Analytics Platform — MERN Stack**

- Built a full-stack data visualization app using React, Node.js, Express, and MongoDB; enabled Excel file uploads and dynamic chart rendering (Chart.js, Three.js).
- Parsed Excel files via SheetJS and stored structured data in MongoDB for scalable analytics workflows
- Implemented JWT-based user/admin authentication with personalized dashboards and upload history tracking.

**Stone and Housing Solutions — PHP + MySQL**

- Built a responsive e-commerce platform with dynamic product catalogs, secure checkout, and admin panel for inventory/order management.
- Used HTML, CSS, JavaScript, PHP, and MySQL to reduce order processing time by 25% and manual effort by 40%.
- Applied responsive design principles and optimized UX across devices.

## Experience

**Software Development Intern — RBSEC TECH PVT. LTD. | Jodhpur, On-site | Mar–Jun 2026 (3 months)**

- Developed and optimized web application components using React.js, Tailwind CSS, Node.js, Express.js, and SQL.
- Worked on RESTful API integration, database operations, and responsive UI development.
- Practiced problem-solving and debugging to identify issues and improve application functionality.

**Web Development Intern — Zidio Development | Bengaluru, Remote | Jun–Sep 2025 (3 months)**

- Built and optimized full-stack components using React.js, Tailwind CSS, Node.js, Express.js, MongoDB, and SQL for client-facing web applications.
- Implemented JWT-based authentication, integrated RESTful APIs, and designed responsive UI flows to enhance user experience and security.
- Collaborated in Agile sprints with designers and backend engineers, contributing to scalable features and timely delivery.
- Recognized with official Internship & Training Certificates for professionalism, technical contribution, and growth
